

MY GLACIER VILLAGE

CONNECT. INSPIRE. SUPPORT.

MAY 2022

Welcome to the Village, Whitney!

We are honored to introduce our newest board member and volunteer, Whitney Warren. Whitney is an Operations Officer, VP at Glacier Bank. She specializes in developing and maintaining customer relationships and more recently helping customers navigate through fraud, identity theft and other elevated situations. She is eager to learn about the Village Movement and get to know all our members and volunteers. Her kind heart as well as her strengths in fraud prevention, operations, technology and project management are already a huge asset to our team!

Whitney recently accepted the role of Technology Support Team Leader, and her first project is to host Technology Tuesdays on the 2nd Tuesday of each month at the office. We realize technology is no replacement for human to human interaction, but it is helpful in so many ways. Would you like to learn to grocery shop online or have facetime chats with your grandkids? Do you have questions about your phone or puzzled by strange phone calls you're receiving? Bring your device. She can help!

Hi! This is Whitney! I am hoping to lead a new Technology Support team, which will be a team of volunteers who can assist our members with their technology questions and share tips and tricks! We want to boost our members' and volunteers' confidence and help them connect in a safe way through technology. I work on a computer and mobile device every day and have the opportunity to help my customers troubleshoot various tools and devices and I look forward to helping the MGV community in the same way.

If you want to be a part of the Technology Support team, please email me directly at whitneyw@myglaciervillage.com. I am not able to check this box daily, but be assured I do check it and will get back to you as time permits. I look forward to meeting you all! ~ Whit
